

**MBA814 - Leading and Managing Teams
Spring 2025 CRN 22150**

Professor Julia Eisenberg, Ph.D.

Email: jeisenberg@pace.edu **Cell Phone:** 315-726-3806

Classes.pace.edu will be used for class announcements, report submissions, instructional materials, and a variety of other information about the course.

OFFICE HOURS:

Mondays 11:15am-1:15pm; 4:30-5:30pm NYC, room W433G

Wednesdays 9:30am-12:30pm via Zoom

By appointment

CLASS ZOOM:

<https://pace.zoom.us/j/91809931512>

Meeting ID: 918 0993 1512

Password: 252525

Note: I am available to meet with you throughout the semester outside of these office hours to discuss your progress or to address any questions/concerns you may have.

CLASS MEETING TIME: Mondays 1:20pm – 4:20pm (detailed schedule included below)

COURSE MODALITY: IN-PERSON (and online/asynchronous, as stated in the class schedule below)

COURSE DESCRIPTION: Understand the complex process of matching employees to tasks and initiatives, managing talent, leading and motivating individuals and the workforce, understanding culture and its impacts, and establishing productive relationships with those with whom the manager has no formal authority such as peers and those senior to them. From the leadership perspective, it is about getting things done while maintaining employee satisfaction, morale, and productivity, and knowing when to make decisions on one's own and when to involve staff. From the organizational perspective, it provides theories and research that will help a manager understand why employees do what they do, including the why of individual, group, and organizational reactions to initiatives and change, and how to manage these dynamic processes.

REQUIRED MATERIALS: Robbins, S. P., & Judge, T. A. (2019). *Organizational behavior* (18th edition). Pearson/Prentice Hall. **Students are required to purchase access to MyLab (Pearson's e-textbook companion).** **ISBN:** 9780135840818; Easiest way is to buy directly through Classes.

COURSE GOALS AND LEARNING OBJECTIVES

- Understand how management processes and leadership affect major organizational outcomes
- Utilize theories to develop and enhance management and leadership competencies
- Apply course tools to diagnose and address complex organizational situations

COURSE REQUIREMENTS AND GRADING CRITERIA

- Weekly Learning Exercises & Quizzes (40%)
- Team Project (25%)
- Final Examination (20%)
- Class Preparation and Discussion (15%)

Weekly Learning Exercises & Quizzes

Throughout the semester, you will be assigned weekly learning exercises which will include various activities, such as chapter exercises and quizzes. You will be expected to complete these exercises by the due date in the course schedule. *Quizzes have only one extra attempt while other assignments have unlimited attempts. **Late assignments will be automatically penalized: 20 % per day.***

Final Examination

A primary objective of this course is to familiarize you with the concepts, theories, and essential skill-sets relating to management and leadership in organizations. You must achieve a basic understanding of this material in order to accurately evaluate or apply it. Therefore, there will be a final examination (utilizing *LockDown Browser* and webcam *Respondus Monitor*) worth 20% of your grade. Details regarding style and format will be discussed in class. Makeup examinations will only be given in cases of documented emergencies. Students who miss the final examination without prior notification and appropriate documentation will receive a zero. The same general rule applies to other assignments as well: Missed deadlines will result in a zero for that assignment unless the above criteria are met.

Team Project Overview

You will complete a team project for this course. As a group and as an individual, you will be expected to continuously apply newly learned concepts to the information, decisions, projections, and conclusions to the project. Your final project includes a written portion – a report in an essay format as well as a final presentation that your team will present to the class later this semester. You will be evaluated for your individual contribution and for the work your team produces. Additional information will be distributed to provide more detailed project-related instructions.

Class Preparation and Discussion

Communication skills, particularly oral communication is critical for success in modern organizations. Thus, the development of oral skills is given a high priority in this course. The classroom should be considered a laboratory in which you can test your ability to convince your peers of the

appropriateness of your interpretation or approach. Superior contributions have some of the following characteristics:

- They evidence a thorough understanding of relevant materials.
- They show a willingness to test new ideas, versus regurgitating facts and playing it "safe".
- They distinguish different types of data, such as facts, opinions, and assumptions.
- They integrate others' comments and questions.

Participation concerns both quantity and quality as calibrated by the following system:

- 10. Outstanding contributor - If this person were not a member of the class, the quality of the discussion would be reduced significantly.
- 9. Good Contributor - If this person were not a member of the class, the quality of the discussion would be reduced considerably.
- 7-8. Adequate Contributor - If this person were not a member of the class, the quality of the discussion would be reduced somewhat.
- 6. Non-Contributor - If this person were not a member of the class, the quality of the discussion would not be changed.
- F. Unsatisfactory Contributor - If this person were not a member of the class, valuable air-time would be saved.

Since much of the learning in this course is based on classroom experience, *it is essential that you prepare for, attend, and actively participate in each class session.* If you know that you will need to miss a class because of a business trip or other important conflict, please let me know in advance.

GRADING:

Final grades will be determined by adding all points and assigning the appropriate grade. **I will not “recalculate” grades** or round up for good behavior or extra credit, as that is unfair to other students. I will, of course, fix any mistakes I may make in recording your grades, as long as you can provide proof.

PROFESSIONAL RESPONSIBILITY AND ACADEMIC INTEGRITY:

The Lubin School has developed a set of Professional Standards that you are expected to read and follow. This is just a reminder that professional behavior is expected of all members of this class. What are professional behaviors? These include, but are not limited to: maintaining standards of academic integrity, arriving to class on time; taking responsibility for checking Classes regularly for announcements and updates. Respect your fellow students: Don't engage in the following distracting behaviors - arriving late, taking unscheduled breaks, using a mobile electronic device of any kind for texting or any other non-class related activity, holding side conversations, and leaving early. If you miss a class, be sure to check with your classmates to see what you missed.

ACADEMIC INTEGRITY: Students in this course are required to adhere to Pace University's Academic Integrity Code. The Academic Integrity Code supports honesty and ethical conduct in the

educational process. It educates students about what constitutes academic misconduct, helps to deter cheating and plagiarism, and provides a procedure for handling cases of academic misconduct. For example, infractions can include, but are not limited to, using and presenting the work of another (including via technology and AI-generated content) as your own, collaborating with others on work intended to be done individually, using unauthorized resources to complete assignments, copying the work of others during an exam, and failing to reference the work of others in your assignments. Students are expected to be familiar with the Code, found in the Student Handbook:

<http://www.pace.edu/academicintegritycode>. Students are responsible for familiarizing themselves with the policies of the schools, programs, and courses in which they are enrolled. You may receive a failing grade in any assignment, exam, or course in which an infraction takes place, and you may be suspended or expelled from the school. When in doubt about what might be considered an academic integrity infraction, the best course of action is to ask your instructor for clarification.

ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES: The University's commitment to equal educational opportunities for students with disabilities includes providing reasonable accommodations for the needs of students with disabilities. To request an accommodation for a qualifying disability, a student must self-identify and register with the Coordinator of Disability Services for his or her campus. No one, including faculty, is authorized to evaluate the need and arrange for an accommodation except the Coordinator of Disability Services. Moreover, no one, including faculty, is authorized to contact the Coordinator of Disability Services on behalf of a student. For further information, please see *Information for Students with Disabilities* on the University's website. To receive accommodation for any disability, students must contact the campus Counseling Center (Pace Plaza, 212-346-1526; Westchester, 914-773-3710).

COURSE SCHEDULE*

Weeks of Class	Dates	Chapters	Topics
01	1/27	1	Introduction
02	2/3	2&3	Diversity Attitudes & Job Satisfaction
