

PACE UNIVERSITY
LUBIN SCHOOL OF BUSINESS
Department of Management

MBA 818 Global Business, Ethics, & Social Responsibility, Spring 2026

CRN 21663: Wednesdays, 1:20 PM – 4:20 PM, One Pace Plaza W-515 (ONCMP)

CRN 22303: Wednesdays, 5:40 PM – 8:30 PM, One Pace Plaza W-515 (ONCMP)

Instructor: Bruce Bachenheimer, *Clinical Professor of Management*

E-Mail: bbachenheimer@pace.edu

Web: <http://www.pace.edu/bbachenheimer/>

Phone: (212) 618-6663

Office: One Pace Plaza, Room W-411C

Hours: Monday 11:00 AM to 12:00 PM & 4:30 PM to 6:00 PM

Wednesday 10:30 AM to 12:00 PM & 4:30 PM to 5:30 PM

COURSE DESIGNATION

On-campus (ONCMP): Course is taught fully on campus; the traditional in-person format with no online instructional elements. *There will be NO OPTION for individual students to attend via Zoom, nor will any class session be video recorded.*

ZOOM LINK

Class Sessions (*special purpose only*) & Office Hours (*by appointment only*):

<https://pace.zoom.us/my/brucebach>

Passcode: 897921

Regular class sessions are scheduled to meet in-person on campus, this option will only be used if Pace University or the instructor notifies students of a special need for an Online Synchronous Zoom class session ahead of time. There is no option for students to attend class via Zoom otherwise. If there is a need for a special purpose Zoom session, all students must have live video enable and have their face in the frame or they will be removed from the Zoom session. No Zoom session will be recorded, and no such request should be made.

COURSE MATERIALS

Required text:

McGraw-Hill Connect – access to Connect gives you access to the eBook and Connect platform, which is where you will complete assignments (grades count) and can take practice exams (optional/grades do not count). Students should NOT simply purchase the printed textbook.

Title: International Business: Competing in the Global Marketplace, 2025 Evergreen Release

Author: Charles Hill

Price: \$167.90 and there is Temporary Access so that you can get started with two weeks of free access to Connect.

Register via Classes → Content → Connect Access → “Click here to register for McGraw Hill Connect”.

Required cases:

Harvard Business School Publishing Cases \$24.75 for the 5 required cases – the custom Coursepack is available at: <https://hbsp.harvard.edu/import/1369611>.

COURSE EVALUATION

Students will be evaluated based upon their performance in each of the prescribed course requirements on the following basis (*all of which are required for successful completion of the course*):

Case Study Analysis – <i>Group</i>	25%
McGraw Hill Connect Chapter Review - <i>Individual</i>	15%
Current Event Analysis – <i>Individual</i>	10%
Midterm Examination – <i>Individual</i>	25%
Final Examination - <i>Individual</i>	25%
Total	100%

CLASS CONTRIBUTION AND ATTENDANCE

Class Contribution is your unique contribution to the class - the net value you add to the classroom experience. Merely attending class is in no way a form of contribution. Answering questions and participating in discussions is what is expected of you as a student, not a unique value-adding activity. Speaking in class, simply to make your presence known, or in a manner that is overly antagonistic, hostile, or intimidating to other students will be detrimental to your grade. Examples of quality class contribution include asking insightful questions that probe deeper into the topic being discussed or challenge conventional thinking; citing current news events or actual business examples that relate to the material being covered; and relating your own professional experience to further a discussion, answer a question, or help explain a difficult issue.

Students are expected to participate in the class discussion of all assigned chapters, cases, and additional material. To perform well at this activity, you must be present and prepared. Students are expected to have finished all assigned work before each session, and to be able to offer informed and thoughtful comments in class discussion. You should also strive to be a critical listener to the comments of your fellow students. If you disagree with what someone has said, speak up and explain how and why your viewpoint differs. Each member of the class should be fully conversant in the material - expect to be called on in class.

Attendance is an integral part of the learning experience in this course. Simply reading the text and preparing assignments cannot make up for much of the material covered in class through lecture, class discussions and exercises. While Class Contribution is not a formal component of calculating the overall course average, it may be taken into consideration to adjust a student's grade when the overall course average is very close to being between letter grades (e.g., 89.8, a B+, rounded up to 90.0, an A-). An attendance rate of less than 72% (i.e., missing 4 or more of the 14 class sessions) will be considered grounds for failure.

Students that have written documentation for an excused absence – such medical treatment, jury duty, military service, certain religious obligations, or other extenuating circumstances – should submit it to the instructor and arrange to deal with any missed lecture content, assignments, or exams that took place during the excused absence. Whenever possible, inform the instructor ahead of time regarding an upcoming excused absence. Only students with a documented excused absence will be permitted to submit an assignment late or make up an examination.

QWICKLY ATTENDANCE

Attendance is taken during the first minute of each class session using Qwickly (Classes > Tools > Qwickly Attendance). If a student does not successfully complete Qwickly attendance at the start of a class session, DO NOT ask me to revise the Qwickly record for any reason. If you arrive late, even by a few seconds, and miss Qwickly that's on you. If you didn't have time to boot your device, connect to WiFi, and navigate to Classes, that's also on you. If you are having technical issues, contact ITS. For traditional On Campus (ONCMP) class sessions, students arriving late may sign in on a hard copy attendance roster (but again, DO NOT ask me to revise the Qwickly

record). For Online Synchronous (SYNCH) class sessions via Zoom, I can see students that arrived late and did not check in on Qwickly on Zoom records (and again, DO NOT ask me to revise the Qwickly record). If you miss Qwickly, you were not “marked absent”, you simply missed the opportunity to check in on Qwickly.

WARNING: If the number of students that checked in on Qwickly exceeds the number of students in the classroom, I will take attendance manually. If a student checked in on Qwickly and is not present (e.g., a student in the classroom texted the code), they will have 10 points deducted from their Final Exam score for each occurrence. If the student who texted the code discloses the infraction, then both students will have 5 points deducted from their Final Exam score.

LAPTOP COMPUTERSS, MOBILE PHONES, AND OTHER ELECTRONIC DEVICES

Students should bring a paper notebook and pen to class as there will be designated periods when laptop computers MUST be closed.

Students may NOT use mobile phones in the classroom. If a student is expecting an URGENT message, they should have their phone on silent mode and EXIT the classroom as unobtrusively as possible to respond.

If a student is found to be using a mobile phone, or a laptop computer when it should be closed, they will be asked to leave the classroom and not return until the next session. If a student believes that a class session is not adding any value, they are welcome to leave the classroom at any time and not return until the next class session.

CASE STUDY ANALYSIS – GROUP (25%)

All students are expected to carefully read each of the five assigned Harvard cases and be fully prepared to discuss them in class. In addition, students will form groups of 4 or 5 (no, not 3 or 6) and discuss each case among all members. Your group will remain the same for the duration of the course. After all team members have read and discussed the case, the group will collaboratively prepare written answers to the case questions presented in the Classes module for four of the cases as a team (the first case, Lenovo, will be discussed in class without written submissions). In preparing answers to the case questions, different opinions, approaches to strategic analysis, critical questions raised, alternate recommendations, etc. among teammates should be incorporated in the responses.

As this is a management course, you are encouraged to utilize the management skills you have accumulated in the program and as professionals to organize and execute a productive group experience. It is the responsibility of the group to determine how group work will take place each week. You are encouraged to use video resources, such as Zoom, as much as possible.

Here is an outline of how the group Case Study Analysis process should generally work:

1. Every group member reads the case individually.
2. Every group member prepares notes individually (could be simple bullet points) for each of the case questions.
3. The entire group meets via Zoom or in person to briefly review the case and compare/discuss/debate answers to each of the questions.
4. Once some form of consensus is reached, individual group members may be assigned to write formal responses to specific questions, or individuals may take turns preparing answers to all questions. Strong differences of opinion among members may be included in the responses.
5. Once answers to all questions are complete, a final draft of the responses should be circulated to all group members for a final check (content, spelling, grammar, etc.) and then submitted to Classes (by any one group member).

NOTE: Groups MUST NOT allow individual members to prepare any of the four Case Study Analysis reports on behalf of the group. Groups MAY NOT allow a subset of team members to prepare any of the four Case Study Analysis reports on behalf of the group. If it is discovered that any of the four Case Study Analysis reports were prepared by an individual or a subset of team members – on a ‘once only’ or a ‘rotating’ basis – every team member may receive an “F” for this entire assignment, which constitutes 25% of your overall course average (i.e. the highest possible course grade any team member could receive is a “C” should every other assignment and exam be graded at 100%). If you are having IRRECONCILABLE DIFFERENCES with your teammates, see me. Without prior permission, any group assignment submitted individually will be assigned an F.

Case Study Analysis reports are submitted on Classes (Activities > Assignments) as a Microsoft Word document by one group member (all members must register for the same Group on Classes, Tools > Groups) and are due by 1:00 PM the day they are scheduled for discussion in class – see the **COURSE SCHEDULE**, which is located on the last page of this Course Syllabus. Late submissions, even if only 1 minute late, are not accepted and will be assigned a grade of zero (0). There are NO LATE SUBMISSIONS or LATE ‘RESUBMISSIONS’ (e.g., if you submitted the wrong file or are missing part of the assignment).

Please include the name of all team members that contributed to each of the Case Study Analysis assignments at the top of the submission. Hopefully, all team members contribute to every assignment, but there may be instances where one or more do not and I need to keep track of this. Additionally, number each question and Copy & Paste the original question being asked in bold before providing your group’s response to that question.

NOTE: it is VERY IMPORTANT that all students carefully review the PowerPoint presentation “GroupCaseStudyInstructions+Questions.pptx” before beginning this assignment.

MCGRAW HILL CONNECT CHAPTER REVIEW (SMARTBOOK 2.0) EXERCISES - INDIVIDUAL (15%)

For each of the ten textbook chapters covered in this course (1, 2, 3, 4, 5, 7, 10, 12, 15, and 17) students will complete the Chapter Review (SmartBook 2.0) learning exercises directly on McGraw-Hill Connect (not on Classes). These chapter assignments are due by 1:00 PM on the day that the reading is assigned (see COURSE SCHEDULE, which is located at the end of this Course Syllabus). Each chapter assignment is available beginning at 1:00 PM the week before it is due (i.e., students cannot complete these assignments weeks before they are due). Each chapter covers approximately 40 concepts and is estimated to take less than 59 minutes to complete. Late assignments will not be accepted. Each assignment is worth up to 100 points and I will manually transcribe your overall Connect Chapter Review grade from Connect to Classes.

NOTE: there is absolutely no option for a late submission, period. This includes any student who may have registered for the course late and missed the first assignment.

There is also a **Practice Exam** for each chapter – these are optional and do not count towards your overall course average. DO NOT confuse the required **Chapter Review Exercise** with the optional Practice Exam.

CURRENT EVENT ANALYSIS – INDIVIDUAL (10%)

Throughout this course you will work on an individual analysis report. You will use the topics we cover in class and apply them to a current event in the business world. The goal is to connect the key points of the topic you chose to the event in a meaningful way, help develop international business literacy and expand your global perspective.

This analysis will focus on the review of a recent (within 2 years) and 'substantial' article (at least 15 paragraphs long) from a 'prominent' foreign business periodical. Examples of prominent international business periodicals in English would include the following:

- The Australian Financial Review, Australia <http://www.afr.com/>
- The Economic Times, India <http://economictimes.indiatimes.com/>
- The Economist, United Kingdom www.economist.com
- Financial Times, United Kingdom <http://www.ft.com/home/uk>
- Nihon Keizai Shimbun, Asian Review, Japan <http://asia.nikkei.com/>

To avoid duplication and share information, students will post their selected topic and link to the article for this assignment on the discussion board in Classes (Activities > Discussions). I DO NOT review and approve selections. The written report must be typed (11-point Arial font, 1.5 line spacing, one-inch margins all around), submitted on Classes (Activities > Assignments) as a Microsoft Word document, and the body of the report (not including the cover page) should be approximately 4 pages in length. The report must include*:

1. A cover page that includes the article title, source, author(s), and date of publication
2. A brief summary of the selected article
3. A clear description of how the selected article directly relates to topics covered in this course
4. A brief explanation of why the article and topics covered are of particular interest to you
5. A detailed analysis of the main trends and arguments presented in the article
6. Two open-ended questions that you would use to stimulate discussion among your peers.

*Clearly indicate the above sections 2. through 6. In your report with separate bold headings (e.g., **1. Summary**, **2. Course Connection**, **3. My Interest**, **4. An Analysis**, and **5. Two Questions**)

The report must be submitted to Classes by 1:00 PM on the day of class session 13. During that class session, students will very briefly (1-2 minutes) summarize their article and discuss why they selected it. This will be a series of short casual 'debriefs' from each student, only a minute or two in length each, designed to share the range of topics explored among all students. With approximately 50 students speaking for a minute or two each, the 'debriefs' should be concluded within approximately 90 minutes. In order to maximize the value of this class session, students should carefully organize their thoughts and practice presenting them in a minute or two ahead of time. Remember, the key here is to connect current news events to course material.

It should not have to be stated here, but "foreign" means published outside of the United States of America. It does NOT mean that the publication covers a foreign topic or that it is 'foreign' to your individual country of origin. If a student does not follow any of the above instructions for this assignment, the highest possible grade will be 75%.

NOTE: if a student does not attend class session 13 and 'debrief' their article, FIVE POINTS will be deducted from the assignment grade unless written documentation for an excused absence is presented.

MIDTERM EXAM – INDIVIDUAL (25%)

The Midterm Exam will cover the first five chapters of the textbook as well as some basic questions from the first three case studies (Lenovo, IKEA, & Daimler). It will consist of 50 multiple choice questions (select the BEST answer – there is only 1 correct answer per question) and there will be a strict time limit of 1 hour. The time limit begins at the normal start of the class session (Class Session #7 – see the Course Schedule on the last page of this Course Syllabus) – if you begin late, you have less time. The exam will be held IN THE CLASSROOM (Pleasantville students will take the exam remotely on Classes) and conducted on Classes (Activities > Quizzes)

with 5 questions being presented per page (do NOT hit 'Submit' at the end of the first page of questions as you will not have an opportunity to answer the following 45 questions and there is NO 'backtracking' permitted. It is a closed book exam and proctoring software will be utilized (Respondus LockDown Browser and Webcam Monitor).

There will be no formal 'exam review' presentation or document, but I will be happy to answer any and all questions possible the session before the Midterm Exam.

If a student misses the Midterm Exam a grade of zero will be assigned, unless the student submits valid written documentation for an excused absence (i.e., medical emergency, certain religious observances, jury duty, or military service), in which case the student's Final Exam grade will count for their Midterm Exam.

FINAL EXAM – INDIVIDUAL (25%)

The Final Exam will cover the final five chapters covered in the textbook (7, 10, 12, 15, & 17) as well as some basic questions from the final two case studies (Hisense-Hitachi, & Sarva). It will consist of 50 multiple choice questions (select the BEST answer – there is only 1 correct answer per question) and there will be a strict time limit of 1 hour. The time limit begins at the normal start of the class session (Class Session #14 – see the Course Schedule on the last page of this Course Syllabus) – if you begin late, you have less time. The exam will be REMOTELY and held on Classes (Activities > Quizzes) with 5 questions being presented per page (do NOT hit 'Submit' at the end of the first page of questions as you will not have an opportunity to answer the following 45 questions and there is NO 'backtracking' permitted. It is a closed book exam and proctoring software will be utilized (Respondus LockDown Browser and Webcam Monitor).

There will be no formal 'exam review' presentation or document, but I will be happy to answer any and all questions possible the session before the Final Exam.

If a student misses the Final Exam a grade of zero will be assigned, unless the student submits valid written documentation for an excused absence (i.e., medical emergency, certain religious observances, jury duty, or military service), in which case special arrangements will be made. If a student misses the Final Exam, there will be no 'automatic make-up exam'. To take the Final Exam at a later date, students will have to qualify for a Conflict Exam or an official Deferred Exam and complete the requirement, otherwise a grade of zero (0) will be assigned. Here is the University's policy:

CONFLICT EXAMS

Students who have two (2) scheduled final exams at the same time of more than two (2) exams on the same day may apply to take one of these exams on the date listed below. The students must file an application for conflict through the Office of the Dean of their school.

FILING DEADLINE: TBD

CONFLICT EXAM DATE: TBD

DEFERRED EXAMS

Students who are permitted to take a deferred examination with the approval of their instructor for compelling reasons only, such as illness, emergencies, or other exceptional circumstances. Students who have a sufficient reason to request a deferred examination are required to complete a deferred examination application form and have it approved by their instructor. If the instructor is not available, students should contact the appropriate academic department for assistance. Eligible students are then required to submit the approved form to the OSA office and pay a fee of \$30.00 for one or a fee of \$50.00 for two or more exams. The filing deadline and examination dates are as follows:

FILING DEADLINE: TBD

DEFERRED EXAM DATE: TBD

FINAL COURSE GRADE COMPUTATION

Course Grade	Descriptive Equivalent	Quantitative Equivalent	Quality Points
A	Excellent	94-100%	4.0
A-	Excellent	90-93.99%	3.7
B+	Good	87-89.99%	3.3
B	Good	84-86.99%	3.0
B-	Good	80-83.99%	2.7
C+	Passing	77-79.99%	2.3
C	Passing	70-76.99%	2.0
F	Failing	0-69.99%	0

NOTE: Overall course averages are not ‘rounded up’ to the next higher letter grade. Yes, an overall course average of 89.9 is CLOSE to an A- but it is **NOT** an A-. The same for other overall course averages and the next highest letter grade.

AI GENERATED CONTENT

Students may use AI tools, such as ChatGPT, the same way that they would use a dictionary, encyclopedia, or other common research resources to prepare academic assignments. They may not, however, submit assignments that contain AI generated content. This will be treated as plagiarism – representing another’s work as one’s own – a serious breach of academic integrity.

All assignments will be automatically checked for plagiarism and AI generated content. While plagiarism detection is quite straightforward, reliable, accurate, and clearly verifiable; detecting AI generated is quite new and current research indicates that there may be a false positive rate of approximately 4%. For this reason, students (for individual as well as group assignments) are advised to save progressive draft versions of assignments should a submission be flagged as containing large portions of AI generated content. For example, if “Assignment 1” is due and submitted on February 19th 2026, students may want to keep files such as: “Assignment1_1-23-2026_draft.docx”; “Assignment1_1-30-2026_draft.docx”; and “Assignment1_2-5-2026_draft.docx” as evidence of progressive and original authorship.

As a warning, stating that you wrote everything yourself and only used an AI tool to ‘rewrite the assignment in better English’ will not be considered a valid defense when AI generated content is detected. It is also another reason to save draft versions of your work should the originality come into question. If you use a tool such as Grammarly, your assignment will likely be flagged for AI generated content. In such cases, students are advised to submit a DRAFT copy of their work along with the final version of the assignment on Classes (clearly label the DRAFT version, which will not be used in grading). IF YOU DO NOT SUBMIT A DRAFT COPY ON CLASSES, YOU ARE HEREBY WARNED TO SAVE A DRAFT COPY OF YOUR WORK BEFORE USING SUCH TOOLS. Note: if such a file is needed, do not open or modify it before sending it to me – I will need to see the date that it was created and last modified. If you do not submit a draft copy of work that is flagged for AI generated content, that will be considered a tacit admission that AI generated content was used, which constitutes grounds for failure of the assignment.

POLICY FOR MISSED ASSIGNMENTS OR LATE SUBMISSIONS

Late submissions will not be accepted without prior permission. Missed assignments will be assigned a score of zero (0). Reasonable accommodations will be made for DOCUMENTED

excused absences (e.g., a medical emergency, certain religious observances, jury duty, or military service that is documented IN WRITING by a legitimate authority). Students are welcome to submit multiple early/draft versions of any assignment to Classes BEFORE the deadline. This 'insurance policy' may be helpful if you may not have reliable Internet access the day the assignment is due. I will only read and evaluate the latest version.

POLICY FOR MISSED EXAMINATIONS

No 'make-up' exams will be offered for students that miss all or part of a scheduled exam. If a student arrives late to an exam, no extra time will be afforded. If a student misses an exam, a grade of zero will be assigned. If a student has a DOCUMENTED excused absence (e.g., a medical emergency with a written note from a licensed physician) for the Midterm exam, the student's Final exam grade will be counted for the Midterm. If a student has a DOCUMENTED excused absence for the Final exam, a make-up exam may be requested.

POLICY FOR EXTRA CREDIT

Any optional extra credit assignments MUST be made available to all students and announced ahead of time. ABSOLUTELY NO extra credit options will be made to individual students at or after the end of the semester.

COURSE DESCRIPTION (*from the Catalog*)

In this course, you will learn about global business, ethics, social responsibility, and legal systems. Business in the global environment is comprised of many factors: the parts played by governments, international institutions, regulations, world monetary and trade systems, global ethics, social responsibility, cultural diversity, differences in opportunities, environmental concerns, economic development, technology, economy, and education among others. The course discusses the conflicts among corporate beneficiaries and socially responsible corporate responses.

COURSE LEARNING OBJECTIVES

By the end of this course, you will be able to:

1. **Assess** the impact of factors of the global environment on ethical decision-making
2. **Outline** how cultural differences impact global business activities
3. **Evaluate** corporate social responsibility and the triple bottom line
4. **Evaluate** global economies and their legal systems

LEARNING GOALS

This course will address the broad learning goals of the Management Department and the Lubin School of Business. Students should expect to actively engage in the following key areas:

Management Department:

- Apply management theories to business situations
- Demonstrate knowledge of motivational tools in leading others
- Plan and organize business strategies and tactics
- Evaluate business results within an organization

Lubin School of Business:

- Communication
- Critical thinking, problem solving and decision making
- Interpersonal interaction
- Global perspectives
- Quantitative applications
- Social responsibility and ethics

ETHICAL BEHAVIOR

1. Individual assignments are to be done individually.
2. Plagiarism of published or unpublished work is unethical. Material taken from other sources should be quoted and cited where appropriate.
3. Respect your fellow students by not interrupting the class, this includes:
 - arriving late,
 - taking unscheduled breaks,
 - using a mobile phone or other electronic device except with PRIOR AUTHORIZATION),
 - using a laptop computer (except for classwork WHEN SPECIFICALLY ALLOWED*),
 - eating or drinking,
 - holding side conversations (especially when a fellow student is speaking), and
 - leaving early.

** Permission may be given to use a laptop to view specific course material (i.e. PowerPoint slides) and take notes electronically during limited periods of a lecture. Otherwise, they must remain closed. Laptops should never be used during a general class discussion or for unrelated activities (e.g., to check e-mail or surf the Web).*

4. All students must adhere to the Lubin School's Code of Academic Integrity throughout the course and the University's RULES FOR EXAMINATION during the Final exam. Violation of these rules, which are in conformity with the STUDENT HONOR CODE, is punishable by expulsion from the University.

ACADEMIC INTEGRITY

All members of the Pace community are expected to behave with honesty and integrity. The Undergraduate Catalog includes the following advisory for students on Academic Integrity:

Students must accept the responsibility to be honest and to respect ethical standards in meeting their academic assignments and requirements. Integrity in the academic life requires that students demonstrate intellectual and academic achievement independent of all assistance except that authorized by the instructor. The use of an outside source, including electronics sources, in any paper, report or submission for academic credit without the appropriate acknowledgement is plagiarism. It is unethical to present as one's own work the ideas, words or representations of another without the proper indication of the source. Therefore, it is the student's responsibility to give credit for any quotation, idea or data borrowed from an outside source.

Students who fail to meet the responsibility for academic integrity subject themselves to sanctions ranging from a reduction in grade or failure in the assignment or course in which the offense occurred to suspension or dismissal from the University. (21)

Pace University's Academic Integrity Code (<http://www.pace.edu/academicintegritycode>)

Students in this course are required to adhere to Pace University's Academic Integrity Code. The Academic Integrity Code supports honesty and ethical conduct in the educational process. It educates students about what constitutes academic misconduct, helps to deter cheating and plagiarism, and provides a procedure for handling cases of academic misconduct. Students are expected to be familiar with the Code, which can be found under "University Policies" in the Student Handbook. Individual schools and programs may have additional standards of academic integrity. Students are responsible for familiarizing themselves with the policies of the schools, programs, and courses in which they are enrolled.

<http://www.pace.edu/sites/default/files/files/student-handbook/pace-university-academic-integrity-code.pdf>

Individual schools and programs may have additional standards of academic integrity. Students are responsible for familiarizing themselves with the policies of the schools, programs, and courses in which they are enrolled.

NOTE: There is now an *obligation to report*

“Course instructors who have knowledge of an act or acts, which they deem constitute academic misconduct, are obligated to follow the procedures set forth in the Academic Integrity Code and report the misconduct to the Chair of the Academic Conduct Committee.”

LUBIN ACADEMIC INTEGRITY STATEMENT

Educational institutions should aspire to instill in their students an appreciation for and the practice of ethical conduct. All students are required to adhere to the statement of academic integrity outlined in the Pace University catalog. Academic integrity infractions can include, but are not limited to, copying and presenting the work of another as your own, collaborating with others on assignments intended to be done individually, using unauthorized resources such as an instructor's manual to complete assignments, copying the work of others during an exam, and failing to reference the work of others or creating fake references in your assignments. You may receive a failing grade in any assignment, exam, or course in which an infraction takes place, and you may be suspended or expelled from the school. When in doubt about what might be considered an academic integrity infraction, the best course of action is to ask your instructor for clarification.

To encourage academic integrity in students' written submissions, the Lubin School of Business subscribes to “Turnitin.com,” which describes itself as follows:

We [Turnitin.com] prevent and detect plagiarism by comparing submitted papers to billions of pages of content located on the Internet and our proprietary databases. The results of our comparisons are compiled, one for each paper submitted, in custom “Originality Reports.” These reports are sent to participating educators, who access the results by logging into their Turnitin account(s). (www.turnitin.com)

As a condition of participating in the program, all required papers may be subject to submission for textual similarity review to Turnitin.com for the detection of plagiarism. All submitted papers will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. No student papers will be submitted to Turnitin.com without a student's written consent and permission. If a student does not provide such written consent and permission, the instructor may:

1. Require a short reflection paper on research methodology;
2. Require a draft bibliography prior to submission of the final paper;
3. Require the cover page and first cited page of each reference source to be photocopied and submitted with the final paper.
4. Require other steps as deemed appropriate by the instructor.

Students can get help on how to use resources properly in their research and writing from many sources. This site (<http://www.pace.edu/library/pages/instruct/plaig.html>) provides links to useful information. The Library also offers an online tutorial on doing research for papers called “APOLLO.” The tutorial is the first item under Student Resources at the link just presented.

REASONABLE ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

The University's commitment to equal educational opportunities for students with disabilities includes providing reasonable accommodations for the needs of students with disabilities. To request an accommodation for a qualifying disability, a student must self-identify and register with the Coordinator of Disability Services for his or her campus. No one, including faculty, is authorized to evaluate the need and arrange for an accommodation except the Coordinator of Disability Services. Moreover, no one, including faculty, is authorized to contact the Coordinator of Disability Services on behalf of a student. To receive accommodation for any disability, you must contact your campus Counseling Center (Pace Plaza, 212-346-1526; Westchester, 914-773-3710). The Coordinator of Disability Services will:

- Evaluate your medical/learning/psychological documentation
- If further documentation is necessary, refer you for appropriate tests
- Make recommendations for your plan of accommodation
- Prepare letters for you to give to your professors to arrange for the recommended accommodations.

Your professor is not authorized to provide any accommodation prior to your arranging for it through the Counseling Center.

CLASSROOM CLIMATE

Our Pace community benefits from the richly unique experiences and individual diversity each of us bring. Intellectual growth and development happen when we engage in free and open discourse that challenges our own assumptions and beliefs. Together we all have the responsibility to create and maintain an environment where differences are respected and valued. To that end, we will challenge all manifestations of bias and discrimination to maintain a climate of mutual respect and civility.

Whether you are learning in an online or on campus environment, the same expectations of courtesy and conduct apply. All classroom interactions should remain civil, respectful, and supportive. If you disagree with someone, aim to acknowledge your disagreement in a respectful way. Try responding with a question to open up further discussion (e.g., I'm not sure that I understand your point of view. Can you say more?). When working online, choose your words carefully. It's easy for someone to misinterpret your meaning when they can't see your expressions or hear the tone of your voice. Be careful when using sarcasm and humor. Without face-to-face communication, your comments may be misinterpreted.

SEX-BASED MISCONDUCT POLICY AND PROCEDURE

Pace University is committed to providing a safe environment for every member of its community and to ensuring that no student, faculty or staff member is excluded from participation in or denied the benefits of any University program or activity on the basis of sex. Accordingly, the University prohibits the following forms of Sex-Based Misconduct: sexual assault, sexual harassment, gender-based harassment, dating violence, domestic violence, sexual exploitation and stalking.

Instructors are a **non-confidential** resource and have an obligation to report any information about sexual assault with Ms. Lisa Miles, Executive Director of Institutional Equity and Title IX Coordinator (163 Williams Street, Room 1017, 212-346-1310, amiles@pace.edu). The Title IX/Affirmative Action Office is responsible for investigating violations of the sexual misconduct policy. For more information about the Pace University sexual misconduct policy, see the [Sex-Based Misconduct Policy and Procedure \(PDF\)](#).

Members of the University community who believe that they have been subjected to Sex-Based Misconduct are encouraged to report such incidents to the University and, where applicable, to local law enforcement. **Confidential** resources include the **University Counseling Centers**,

Offices of Sexual and Interpersonal Wellness and University Healthcare. Contact information for those offices may be found in the self-care section below.

LEARNING CENTER

The Learning Center (<https://www.pace.edu/center-academic-excellence/learning-center>) uses an array of programs and a holistic approach to assist students with academic skills and content knowledge. We are dedicated to developing independent learners by creating purposeful interactions with trained, well-qualified peer and professional staff.

TECHNOLOGICAL RESOURCES

- List of all Pace Information Technology Services: <http://www.pace.edu/its>.
- For assistance with a technological concern (Classes, Internet, Computer, etc.), contact the Pace Helpdesk at 914-773-3648 or create a help desk ticket at: <https://help.pace.edu/helpdesk/WebObjects/Helpdesk>.
- Visit the Learning Remotely website: <https://www.pace.edu/working-remotely/students>

Appropriate Use Policy for Information Technology:

Pace endorses the following statement on software and intellectual rights distributed by EDUCAUSE, the non-profit consortium of colleges and universities, committed to the use and management of information technology in higher education. The statement reads:

Respect for intellectual labor and creativity is vital to academic discourse and enterprise. This principle applies to work of all authors and publishers in all media. It encompasses respect for the right to acknowledgment, right to privacy and right to determine the form, manner and terms of publication and distribution.

Because electronic information is volatile and easily reproduced, respect for the work and personal expression of others is especially critical in computer environments. Violations of authorial integrity, including plagiarism, invasion of privacy, unauthorized access and trade secret and copyright violations, may be grounds for sanctions against members of the academic community.

Pace's appropriate use policy applies to recordings of classroom instruction and digital artifacts created by faculty and students: <https://www.pace.edu/its/about-its/policies/it-appropriate-use-policy>.

BRIEF PROFILE OF INSTRUCTOR

Bruce Bachenheimer is a Clinical Professor of Management at Pace University. He teaches undergraduate and graduate courses, primarily in the areas of entrepreneurship, management, and strategy. Among other initiatives, he implemented and organized the Pace Pitch Contest, Business Plan Competition, Israel Entrepreneurship Initiative, Veterans Entrepreneurship Boot Camp, and the Ted and Pat Levine Proof of Concept Entrepreneurship Initiative. He created the Entrepreneurship Lab (eLab) and served as its Executive Director. He has twice been appointed a Faculty Fellow of the Wilson Center for Social Entrepreneurship.

He is an Emeritus Board Member and past Chair of the New York City Chapter of the MIT Enterprise Forum and has served on the organization's Global Board. He is on the advisory board of Disruptive Technologists of NYC and several private firms, an ELabNYC Mentor, an NSF I-Corps Industry Mentor, and has served as a consultant to governmental organizations and numerous new ventures. He has been widely quoted in a variety of domestic and international publications, interviewed on radio and television, and has spoken on entrepreneurship for many organizations, including the Youth Assembly at the United Nations, Global Consortium of Entrepreneurship Centers, Kairos Society, and the U.S. Department of State's International Visitor Leadership Program and Foreign Press Center.

Mr. Bachenheimer's earlier career includes having served as a Vice President of iQ Venture Partners, an Assistant Vice President of Westpac Banking Corp. and an International Banking Officer for the Bank of Tokyo. As the International Product Manager for MSI, an SBA certified 8(a) firm, he was responsible for the initial commercialization of a high-technology forensic science system. In that position, he conducted business in over twenty countries. He was also the founder of Annapolis Maritime Corp. and Co-Founder of StockCentral Australia. Other activities include having sailed his 36' boat from New England, through the Caribbean, to South America and back.

Mr. Bachenheimer holds a BBA, Summa Cum Laude, from Pace University. He spent a semester at Tsukuba National University in Japan as an undergraduate and continued to study Japanese at N.Y.U. after graduating. He later received the McKinsey & Company Leadership Scholarship to pursue an MBA degree, which he earned from the Australian Graduate School of Management.

A Note Regarding "The No Excuses Culture"

Students are expected to adopt a 'No Excuses Culture' in this course. For reference, please read the blog post by Steve Blank at: <https://steveblank.com/2017/03/08/the-no-excuses-culture/> and focus on the Lesson Learned:

- *No excuses for failures given, just facts and requests for help*
- *No excuses for failures accepted, just facts, and offers to help*
- *Relentless execution*
- *Individual honesty and integrity*

A Note Regarding Excused Absences

Students that have documentation for an excused absence – such medical treatment, jury duty, military service, certain religious obligations, or other extenuating circumstances – should submit it to the instructor and make arrangements to deal with any assignments or exams that took place during the excused absence. Whenever possible, inform the instructor ahead of time regarding an upcoming excused absence. Only students with a documented excused absence will be permitted to submit an assignment late or make up an examination.

A Final Note

If you find that you are having some trouble in class (e.g., with contribution, assignments, other team members, etc.), I want to know about it as soon as possible. I will do my best to help students who, despite a sincere and solid effort, are experiencing difficulty. I do not want to hear about such problems after an assignment is due, at the end of the semester, or after you have received final grades. Also, if there is any aspect of my instruction or the course in general that you believe can be improved, PLEASE let me know in person or anonymously – don't wait until the end of the semester when it is too late to try to improve your classroom experience.

TEXTBOOK CONTENTS

PART ONE Introduction and Overview

Chapter 1 Globalization*

PART TWO National Differences

Chapter 2 National Differences in Political, Economic, and Legal Systems*

Chapter 3 National Differences in Economic Development*

- The Current Event Analysis Report is due by 1:00 PM on the day the assignment is being discussed in class (class session 13). NO LATE SUBMISSIONS ACCEPTED.
- The Midterm and Final exams will only be held during the FIRST HOUR of the regularly scheduled class session.

If there is any confusion or discrepancy regarding a due date/time at all (e.g., among the Course Syllabus, Classes, Connect, in class instruction, etc.), please contact me via e-mail promptly, before any assignment/exam is scheduled or due.

PLEASE:

1. **Do not** ask to attend a class session via Zoom, no such option is permissible for this On-campus (ONCMP) course section.
2. **Do not** ask me to change the online record If you miss the Qwickly check in. You were not 'marked absent' – you simply were not in the classroom when Qwickly attendance was being conducted. You are welcome to sign in on the paper attendance record.
3. **Do not** ask a fellow student to text you the Qwickly attendance code if you are not in the classroom when it is being conducted. If you do and you are not present when I take attendance traditionally, you will be penalized 10 points on your Final Exam score for each occurrence.
4. **Do not** use your mobile phone in class. If you do, you will be asked to leave the classroom for the remainder of that class session.
5. **Do not** open your laptop computer during periods when they are instructed to be closed. Bring a paper notebook and pen to class sessions to take notes by hand during such periods. If you open your laptop during such times, you will be asked to leave the classroom for the remainder of that class session.
6. **Do not** ask to submit an assignment late, late submissions will not be accepted. If you have a documented excused absence, reasonable accommodations will be arranged. You are welcome to submit as many draft versions of an assignment as you would like. That way, if you miss the final deadline you can receive credit for the latest draft submitted.
7. **Do not** submit 'the wrong file' to Classes and ask to resubmit an assignment claiming it was a simple mistake. Double-check your submissions before the deadline.
8. **Do not** plagiarize any content on an assignment. If you are including information directly from a case, "put it in quotes."
9. **Do not** submit AI generated content. If English is not your native language and you use an application such as Grammarly, which will likely result in flagged AI generated content, submit draft versions of your work to Classes, even if in a foreign language.
10. **Do not** ask for individual extra credit options. Any such options must be made available to all students and announced ahead of time.
11. **Do not** ask that your course letter grade be rounded up from your overall course average.
